

## **Detroit Metro Skating Council**

### **Protocol for the Use of IJS mini-system owned by DMSC**

1. All rentals are subject to date and hardware availability
2. User priorities: While conflicting competition dates are controlled to the extent possible by US Figure Skating, conflicts remain possible. Reservations are accepted in the order the reservation is made “permanent” by payment of the non-refundable deposit. DMSC member clubs will have priority over non-member clubs if the deposit is received on the same day as the conflicting non-member club.
3. Reservations will not be accepted prior to one year in advance of competition start date.

Please note: We are happy to rent the system outside the local area; however, we have decided NOT to commercially ship the equipment. We will work with the LOC to arrange delivery via the Tech Accountant, other attending Officials, or other reliable party. Only Technical Accountants approved by DMSC may transport the system via checked baggage on commercial airlines.
